Ezzel a füzettel újabb részlete jelenik meg a "Vocabularium abbreviaturarum bibliothecarii" c. munkának. Ez a füzet az állami hivatalok és államközi intézmények, továbbá politikai pártok, mozgalmak és a politikát, szociológiát tanulmányozó egyesületek névrövidítéseit - több mint 15 000 tételt - tartalmazza. A közlekedési intézmények közül technikai okokból itt csak a legfontosabbakat tudtuk felvenni; ennek az anyagnak a részletes feldolgozása egy megjelenés alatt álló külön füzetben történik, amely ezen kívül a hírközlési szerveket is fel fogja ölelni.

Mostani jegyzékünk is többéves gyűjtő- és feldolgozó munka eredménye; összeállításához elsősorban a most már nagyszámu nemzeti és nemzetközi rövidítésgyűjteményeket, valamint a központi periodikajegyzékeket használtuk fel, de sokat meritettünk különböző speciális jegyzékekből, sőt monográfiákból is. Gyűjtésünkben a megjelölt tárgykörben teljességre törekedtünk, s mintegy 30 nyelv rövidítéseit vettük figyelembe. Könyvtári és dokumentációs célkitűzésünkben eredően gyűjtésünk nemcsak ma élő rövidítéseket tartalmaz, hanem a múltba is visszanyulik, bár ilyen vonatkozásban teljességre nem törekszik.

Az anyag feldolgozási módja tekintetében: az egyes rövidítéseket követi a feloldás, utána - amennyiben megállapítható volt - az illető testület székhelyének, esetleg országának megnevezése, majd annak a nyelvnek egy-két betűvel rövidített jelzése, amelyből a rövidítés származik. A székhelyül szolgáló városok közül azokat, amelyek gyakrabban fordulnak elő, szintén csak egy-két betűvel jelöljük. A latinbetűs rövidítések feldolgozásában az egyöntetűség érdekében mi is követtük a nemzetközi rövidítésgyűjteményeknek azt a gyakorlatát, hogy a partikulák kivételével minden szót nagy kezdőbetűvel írunk. Ha ugyanazon testületnek több sziglája is van, úgy a feloldást csak egyszer adjuk, s a változatok mindegyikénél egyenlőség jellel utalunk az alapalakra.

Ha ugyanazon testületnek több nyelven van hivatalosan használt rövidített neve, úgy a változatokról a különböző nyelvű rövidítések teljes felbontása mellett utalunk a főalakra. Ha valamely rövidítés a gyakorlatban változó alakkal ugyan, de azonos betüértékkel /pl. csupa nagybetűvel vagy részben kisbetűkkel stb./ is előfordul, a különböző formai változatok feltüntetéséről kénytelenek voltunk lemondani.

Az egész anyagot két - latin és cirillbetűs - betűrendben hozzuk. Minthogy könyvünk elsősorban magyar használók részére készült, a latinbetűs abc-ben megtartottuk a magyaros sajátságokat, tehát az ö és ü betű külön csoportban következik az o, illetve u betűk után. Ugy véljük, ez a betűrendi sajátosság nem fogja zavarni a külföldi használókat.

Az un. diakritikus jeleket a betűrendi beosztásban nem vettük figyelembe. A cirillbetűs betűrendben természetesen önálló csoportban szerepelnek az ukrán "i" és a szerb "j" betűvel kezdődő rövidítések.

Ezt az alkalmat használjuk fel arra, hogy az eddig megjelent füzetek bel- és külföldi ismertetőinek őszinte köszönetet mondjunk a sok értékes megjegyzésért és tanácsért. Különösen hálásak vagyunk a "Zentralblatt für Bibliothekswesen" szerkesztőségének, amely minden füzetünket alapos és beható bírálatban részesítette, s ezen felül levélben is közölte velünk megfigyeléseit. Ugyancsak sokat köszönhetünk eddigi füzeteink lektorainak, akik az anyag lelkiismeretes felülvizsgálata után értékes útbaigazításokkal tették használhatóbbá gyűjtésünket.

Reméljük, hogy újabb szerény füzetünkkel - hiányosságai és hibái mellett is - használható segédeszközt adhattunk az érdeklődők kezébe.

Введение

Настоящая брошюра является новым разделом "Vocabularium abbreviaturarum bibliothecarii". В эту часть входят сокращения названий государственных и межгосударственных учреждений, политических партий, движений и обществ, изучающих политику, социологию — больше чем 15 000 названий. Мы должны сказать, что из транспортных учреждений, по техническим причинам, мы могли включить сюда только самые важные; подробную разработку такого материала содержит отдельный выпуск, в который кроме этого включаются и учреждения связи. Этот выпуск в печати.

Этот наш список, так же, как и предыдущие, является результатом многолетней работы по собиранию и разработке материала; при его составлении мы воспользовались национальными и интернациональными списками сокращений, которые имеются сейчас уже в большом числе, но много черпали также из различных специальных списков и даже из монографий. В указанном кругу мы стремились в нашей работе к полноте сокращения на 30 языках. Вследствие наших библиотечных и документационных целей, в нашем списке содержатся не только сокращения, употребляющиеся в настоящее время, но затрагивает он и прошлое, хотя в этом отношении к полноте не стремится.

Что касается метода обработки материала: после отдельных сокращений следует их расшифровка, затем — если это можно было установить — указание города или страны местопребывания, а затем указание одной-двумя буквами того языка, из которого взято сокращение. Для указания тех городов, которые встречаются нам более часто, мы также использовали сокращения на одну-две буквы. При расшифровке сокращений латинскими буквами, в интересах однородности, мы следовали той практике международных списков сокращений, что все слова, за исключением партикул, писали с заглавной буквы. Если одна и та же организация имеет несколько сокращений с различными буквенными обозначениями, то полную расшифровку мы дали только для одной формы, а в отношении вариантов знаком равенства указы-

вали на те места, где можно найти их полную расшифровку. Если одна и та же организация имеет официальные сокращения на разных языках, тогда у вариантов при полной расшифровке сокращений на разных языках, укажем на основную форму. Если какое-либо сокращение имеется на практике в различной форме, но с теми же буквами, /например, полностью заглавными буквами или частично со строчными буквами и т. д./ мы вынуждены были в нашем сборнике отказаться от приведения вариантов.

Весь материал расположен по двум - латинскому и русскому - алфавитам. Так как наша книга предназначена в первую очередь для венгерские особенности, то есть буквы "ö" и "ü" следуют после "o" и "u" в качестве самостоятельных букв. По нашему мнению, эта особенность не мешает иностранным пользователям. На так называемые диакритические знаки в алфавите мы не обращали внимания. В кириллическом алфавите, само собой разумеется, фигурируют отдельно сокращения, начинающиеся с украинского "і" и сербского "j".

Воспользуемся случаем поблагодарить венгерских и зарубежных рецензентов вышедших до сих пор выпусков нашей работы, за множество ценных замечаний и советов. Особенно благодарны мы редакции "Zentralblatt für Bibliothekswesen", которая глубоко и основательно критиковала каждый наш выпуск, но кроме того еще в письме сообщала нам свои замечания. Также благодарим и лекторов предыдущих выпусков, помогавших нам, после добросовестного пересмотра материала, сделать наш сборник более годным для употребления.

Надеемся, что наша новая скромная работа, вопреки своим пропускам и ошибкам, окажется полезным подспорьем для интересующихся.

This booklet, the latest issue of "Vocabularium abbreviaturarum bibliothecarii", contains more than 15,000 entries, including the abbreviations of social, political, and sociological institutions, political parties, inter-state institutions and offices. Due to technical difficulties only the most important institutions concerned with transportation are included. This topic, together with organs of communication, will be fully covered in a separate issue now under preparation.

This work is the result of several years of collecting and processing data. Primarily the numerous Hungarian and international collections of abbreviations and the central periodical catalogue were employed in the compilation, but use was made of various special catalogues and even monographs. With the needs of libraries and reference work in mind, the abbreviations of thirty languages were taken into consideration in an attempt to be as complete as possible. Not only existing abbreviations, but even past ones are included, although these latter are not complete.

The following method of processing has been used: the abbreviations are followed by the full name, then - whenever it is known - the centre of the institution or possible the country and finally the letters standing for the original language of the abbreviation. Only one or two letters are used for the most frequently occurring centres. When giving the full name after abbreviations in Latin letters, the international practice for compilations of abbreviations were used and, with the exception of particles, every word is capitalized. If an institution has more than one sigla, the full description is given only once and an equality sign is used to refer to the basic form. If the same institution has official abbreviations in several languages, the main form is referred to whenever giving the variation and the full names are given after the abbreviations in the different languages. Whenever the name of an institution is known in different forms, but with the same letters /e.g., allcapitalized, or only part are capitalized/, the different forms are not listed.

The entire material is listed according to two alphabets, Latin and Cyrillic, but since the volume is primarily intended for Hungarian researchers, the Latin alphabet includes the particular Hungarian letters, e.g., "ö" and "ü" follow after the "o" and "u" respectively. We believe that this peculiarity will not cause the foreign reader any difficulty. The so-called diacritical marks were disregarded in the alphabetical arrangement. Abbreviations beginning with the Ukrainian i and the Soviet j comprise separate groups in the Cyrillic alphabetical listing.

Let us take the opportunity to express our thanks to the Hungarian and foreign reviewers of the previous volumes for their valuable comments and suggestions. We are especially grateful to the editors of "Zentralblatt für Bibliothekswesen" who thoroughly criticized every booklet and even commented by letter. We are also indebted to the control editors who, after the conscientious reading of the material, made valuable suggestions for the improvement of the work.

We hope that this volume - in spite of its omissions and errors - will be a useful source of reference to all those interested in this field.

Avec la brochure présente une nouvelle partie de l'oeuvre "Vocabularium abbreviaturarum bibliothecarii" fait son apparition. Cette brochure contient les abréviations des noms de bureaux d'état et d'institutions interétatique, ainsi que de partis, mouvements politiques et d'associations traitant la politique, la sociologie - plus de 15000 dénominations. Il faut faire remarquer, que parmi les institutions de communication nous n'avons pu, a cause de raisons techniques, inserer ici que les plus importantes; le traitement détaillé d'une matière de cette sorte sera présenté dans une brochure à part, brochure qui embrassera aussi les organes des divers procédés de communication. Cette brochure est sous presse.

Notre registre présent est également le produit d'un travail de collecte et d'élaboration de plusieurs années; nous nous sommes servi dans la composition en premier lieu des collections d'abréviations nationales et internationales, aujourd'hui déjà nombreuses, ainsi que des brochures de periodiques centrales, mais nous avons puisé également aux divers registres spéciaux et même aux monographies. Dans notre collecte nous nous sommes efforcés d'atteindre, dans le cadre désigné des sujets, l'intégralité et nous avons tenu compte des abréviations d'à peu près 30 langues. Il suit de notre programme de bibliothécaire et de documentation, que notre collection ne contient pas seulement les abréviations en vigueur à l'âge ou nous vivons, mais nous remontons même dans le passé, bien que sous ce rapport nous ne tenons pas compte d'une intégralité absolue.

En se qui concerne notre methode de travail, elle est la suivante: après les abréviations nous donnons les dénouements suivies du nom du siège, eventuellement celui du pays de la corporation dont il est question - autant que nous étions à même de les fixer - et puis, par quelques lettres, la courte designation de la langue, dans laquelle l'abréviation avait été faite. Parmi les villes de siège celles, qui se repetent fréquemment nous nous servons également que de quelques lettres.

Dans l'intérêt de l'homogénéité nous avons suivi la pratique des recueils internationaux d'abréviations: pour le dénouement des abréviations en lettres romaines, nous avons écrit les initiales de tous les mots, avec des majuscules excepté les particules. Si une corporation se servait de plusieurs abréviations de nom, nous donnons le dénouement qu'une fois et à chaque variation nous nous référons au prototype en utilisant un signe d'égalité. Cependant si la même corporation avait en plusieurs langues une abréviation du nom dont elle se sert officiellement, nous donnons de ces variations d'abréviations de plusieurs langues, le dénouement complet en nous référant au prototype. Si une abréviation se produisait en pratique, en forme variée, mais avec des caractères identiques /par exemple: le tout écrit qu'en majuscules, respectivement, en partie, varié de minuscules etc./ nous étions obligés de renoncer à la mise en évidence des différentes variations de forme.

Nous présentons toute la matière par deux ordres alphabétiques: latins et cyrilliques. Étant donné que notre livre fut préparé en premier lieu aux lecteurs hongrois, nous avons gardé dans l'alphabet latin les spécialités hongroises, donc les caractères ö et ü sont groupés à part après les lettres o et u. Nous pensons que cette spécialité alphabétique ne gênera pas les usagers étrangers.

Nous n'avons pas pris en considération les soidisants signes diacritiques dans l'indexage alphabétique. Dans l'ordre alphabétique cyrillique les abréviations dont les initiaux sont le i ukrainien ou le j serbe figurent évidemment dans des groupes à part.

Nous saisissons cette occasion afin de présenter nos remerciements les plus sincères à tous ceux - hongrois et étrangers - qui ont fait le recensement des brochures parues jusqu'à présent pour leurs multiples observations et conseils si précieux. Nous sommes particulièrement obligés à Messieurs les rédacteurs du "Zentralblatt für Bibliothekswesen" qui ont bien voulu soumettre toutes nos brochures à une critique approfondie et minutieuse et de plus, nous ont même communiqué par lettres des observations. Aussi savons nous bon gré aux lecteurs de nos brochures, qui après avoir consciencieusement examiné la matière, nous ont donné des indications précieuses pour rendre plus utilisable notre collection.

Nous espérons que par notre dernière modeste brochure - en dépit de ses lacunes et défauts - nous avons pu présenter aux intéressés un instrument utilisable de travail.

Mit diesem Heft veröffentlichen wir einen neuen Teil unseres Werkes "Vocabularium abbreviaturarum bibliothecarii". Dieses Heft enthält die Namensabkürzungen der Staatsämter und der zwischenstaatlichen Institutionen, ferner der politischen Parteien und Bewegungen und der sich mit Politik und Soziologie befassenden Vereinigungen - insgesamt über 15.000 Bezeichnungen. Es sei hier bemerkt, dass von den Verkehrsinstitutionen konnten wir hier aus technischen Gründen nur die wichtigsten aufnehmen. Die Materie dieser Sorte wird in einem Sonderheft detailliert aufgearbeitet, welches auch die Organe der Nachrichtenvermittlung enthält. Dieses Heft steht vor seiner Veröffentlichung.

Unser gegenwärtiges Verzeichnis ist das Ergebnis mehrjähriger Sammel- und Aufarbeitungstätigkeit; bei der Zusammenstellung haben wir in erster Reihe die heutzutage schon sehr zahlreichen nationalen und internationalen Sammelwerke der Abkürzungen, sowie die Gesamtverzeichnisse der Periodika, benützt, aber viel auch aus verschiedenen speziellen Verzeichnissen geschöpft, sogar aus Monographien. Wir waren bestrebt in unserer Sammelarbeit im Rahmen des bezeichneten Themenkreises Vollständigkeit zu erreichen und haben Abkürzungen aus cca 30 Sprachen in Betracht gezogen. Unserem Bibliothekar- und Dokumentations-Tätigkeitsziele folgend haben wir nicht nur die heute üblichen Abkürzungen aufgenommen, sondern griffen auch in die Vergangenheit zurück, obwohl wir in dieser Beziehung auf eine Vollständigkeit nicht streben konnten.

Was die Methode der Aufarbeitung des Materials betrifft, ist sie die folgende: nach Angabe einer Abkürzung folgt die Lösung, sodann - soweit es feststellbar war - die Nennung des Sitzes, event. des Landes der in Rede stehenden Korporation, endlich die Bezeichnung mit einigen Buchstaben ausgedrückt jener Sprache, aus welcher die Abkürzung erfolgte. Den Namen der als Sitz dienenden Städte, falls sie häufiger vorkommen, haben wir ebenfalls nur mit einigen Buchstaben bezeichnet. Bei der Lösung der mit lateinischen Buchstaben geschriebenen Abkürzungen

haben auch wir im Interesse der Gleichförmigkeit der Praxis internationaler Abkürzungssammelwerke folgend jedes Wort - mit Ausnahme der Partikel-grossgeschrieben. Hat eine Korporation mehrere Namensabkürzungen, so geben wir nur einmal die Lösung und bei jeder Variation verweisen wir mit einem Gleichheitszeichen auf die Grundform. Falls eine Korporation in mehreren Sprachen eine Ankürzung ihres Namens amtlich gebraucht, so weisen wir bei jeder Variation, mit voller Lösung aller fremdsprachiger Abkürzungen, auf die Grundform hin. Kommt in der Praxis eine Abkürzung in wechselnder Form, aber mit identischen Buchstaben /z. B. nur mit grossen Buchstaben, bzw. teilweise auch mit kleinen Buchstaben, usw./ vor, mussten wir auf das Angeben der verschiedenen Formabweichungen verzichten.

Wir bringen die ganze Materie in zwei alphabetischen Ordnungen /lateinische und Cyrillische/. Da unser Buch in erster Reihe den ungarischen Fachmännern zu Dienste steht, haben wir im lateinischen Alphabet die ungarischen Spezialitäten beibehalten, so folgen die Buchstaben ö und ü in einer Sondergruppe unmittelbar nach den Buchstaben o und u. Wir sind der Meinung, dass diese alphabetische Ordnung die ausländischen Benützer nicht stören wird. Wir haben die sogenannten diakritischen Zeichen in der alphabetischen Einteilung nicht berücksichtigt. Im cyrillischen Alphabet figurieren die mit dem ukrainischen і oder serbischen ј beginnenden Abkürzungen in selbständigen Gruppen.

Wir benützen diese Gelegenheit um den in- und ausländischen Rezensenten der bisher erschienenen Hefte unseren aufrichtigen Dank für ihre vielen wertvollen Bemerkungen und Ratschläge auszusprechen. Wir sind besonders der Redaktion des "Zentralblatt für Bibliothekswesen" zu Danke verpflichtet für ihre eingehende und gründliche Kritik, in welcher unsere Hefte zu Teil werden liess und auch für ihre Bemerkungen die uns brieflich mitzuteilen die Freundlichkeit hatte. Auch verdanken wir sehr viel den Lektoran unserer bisherigen Hefte, die nach gewissenhafter Überprüfung des Materials uns wertvolle Anleitungen gegeben haben um unser Sammelwerk verwendbarer zu gestalten.

Wir hoffen, dass wir mit unserem neuesten bescheidenen Hefte - trotz seiner Fehler und Mängel - ein brauchbares Hilfsmittel den Interessenten überreichen konnten.
